January 6, 2014

Dear Dra. Bachelet:

On behalf of the Medical Women's International Association (MWIA), it is a great pleasure to send a congratulatory message to you on your successful election to the position of President of Chile.

The executive of MWIA had the opportunity of a private meeting with you during your first Commission on the Status of Women meeting in your role as Executive Director of UN Women. Following this opportunity, we felt a kindred spirit with you as a fellow medical woman.

We applaud the work you did in your UN role and know that you will face the new role as President of Chile with the same dedication and commitment for the good of the Chilean people, both women and men.

Once again, congratulations from the medical women around the world!

Sincerely

Dr. Kyung Ah Park, President and Dr. Shelley Ross, Secretary General  
Medical Women's International Association
